## OBJECTIVE

My objective is to keep pushing the boundaries of what can be achieved in application development while providing outstanding solutions to the challenges of the future.

## PROFESSIONAL SUMMARY

I completed a Bachelor of Science in Software Engineering (BSSE) in 2023. I'm proficient in various technologies such as React Native, Flutter, Swift, Kotlin, Spring Boot, WordPress, Selenium, Jest, MySQL, and MongoDB. Specialized in application development using different technologies.

Currently serving as a valuable asset to Diya Interactive, I have led the conversion of Figma designs into responsive applications, incorporating Firebase for enhanced functionality and implementing push notifications for improved user engagement. My proficiency extends to writing Jest unit test cases, updating UI for existing Swift applications, and collaborating on Apps Flyer. With a proactive approach, I manage various app store responsibilities, ensuring optimal performance and visibility.

I'm good at adapting to new technologies and working well in teams. I have technical skills and smart thinking to make projects successful. I'm dedicated to providing top-notch solutions and keeping up with the latest trends in the industry, making me a valuable asset to any forward-thinking organization.
